# Ricardo Sanjur

ABOUT ME

Proactive Systems Engineer with solid Full-stack development skills, specialized in creating robust solutions for both Backend and Frontend. Passionate about technology and proficient in English, I seek to apply my knowledge in application development to contribute to the success of innovative projects.

PROYECTS

Medal Gallery

TOPOGRAFIA ESPECIALIZADA S.A.
2025

- Full-stack development of a web platform to display a digital catalog of personalized medals and attract new clients. Created a centralized, visual tool for customers to explore design and color options.

Senderos Amados

2025

- Developed a promotional website for house rentals in Boquete, featuring detailed property descriptions and a high-quality image gallery. Successfully established an attractive online presence, facilitating tenant acquisition through intuitive navigation and visual design.

Blender Course Web Page

2025

- Developed a full-stack educational platform (Astro/ Express.js) to share a Blender course, tracking user progress through completed chapters. Implemented MySQL via Drizzle and utilized Passport for robust user authentication and state management on a cPanel server.
